

# When Things Explode

## Unkle

Your skull froze little lives  
In shadows where you hide  
A life that was designed  
You've been cheated, oh so blind You laid it on the line  
These twisted words of time  
And how your spirit shines  
I wish that you were mine Yeah, lately  
I know that I've been crawling  
I know that I've been falling  
Into your dream Imagine no more tears  
Dissolving all your fears  
With tooth and claw we fight  
Into this endless night Yeah, lately  
I know that I've been crawling  
I know that I've been falling  
Into your dream I saw my tears in your eyes  
You saw your tears in mine  
We watched it burn together I saw my fears in your eyes  
You saw your fear in mine  
We watched it burn together  
Watched it burn Burn, yeah, burn  
Watched it burn, burn, yeah, burn  
Watched it burn, burn, watched it burn  
Watched it burn, burn, watched it burn All is forgiven
