I Wanted to Tell You

Matthew Sweet

Do just what you want to
I think you're right
I do what I want to do
I do what I wanna doI let the world surround me
'Cause I saw no real harm
I didn't stop to think of you
You were already in my arms
I was wrongBut I, I wanted to tell you
I wanted to tell you
What I couldn't say
(Love)
I needed to find mine
But it took me a long time
To seeLove
Well never mind
I know how you feel about that
And know what you think about timesSomethin'
I wanted to tell you
I wanted to tell you
What I couldn't say
(Love)
I needed to find mine
But it took me a long time
To seeI do what I want to do
I do what I wanna do
I do what I want to do
I do what I wanna doI let the world surround me
'Cause I saw no real harm
Didn't stop to think of you
You were already in my armsThere was somethin'
I wanted to tell you
I wanted to tell you
What I couldn't say
(Love)
I needed to find mine
But it took me a long time
To see
