This Boy

I'm from Barcelona

Feeling like a tape recorder
Stuck between rewind and forward
Always going two directions
One's ahead and the second is backwards

Please press my rec & play
'Cause I want to save this moment
This will be my favorite song
This will be my favorite album
This will be my favorite album

I will throw my tapes away 'cause
This will be the one worth saving
Push the faders, break the meters
Rolling, rolling, time to get going

Please press my rec & play
'Cause I want to save this moment
This will be my favorite song
This will be my favorite album

Please press my rec & play
'Cause I want to save this moment
This will be my favorite song
This will be my favorite album

Well, this will be my favorite album
Well, this will be my favorite album

My rec & play
My favorite song
My rec & play
My favorite song
