

Need For Speed (feat. Louisahhh!!! & Bloody Jay)

Brodinski

got a need for speed
Burning with adrenaline
in the turn i lean
let me show you what i mean
Need a change of scene
Get me on a hot machine
In starlight gleam
Blood and sweat
And Gasoline
throttle, choke
i wanna provoke (you)
sick of being polite
street light fist fight dynamite
You said give me back the night
throttle, choke
a fire stoked (you)
Better hold on tight
Let me keep you up all night
This will fill me up all right
Gotta rev it up
get me goin so i can't stop
Wanna tear it up
Open road burn engine hot
