Alison Moyet

It's the stain on the moon
It's your idiot name
It's the noise in the noise
The gift of the game
It's the fruit that we bear
The peach that I bore

It's you and it's me and it should have been moreIt's the choice that I made

And the maid that you chose

It's the slip in the slide

From fingers to toes

It's the song of out there

The pull of the door

It's you and it's me and it should have been moreIt's only hours, only days

Sat in Libra's bowl

Where it's all, it's all, it's all

It's all balancingIt's the black in the grate

The smoke in the sink

It's the either that you and I

Opted to drink

It's the tooth that we chipped

On the first ever kiss

It's you and it's me and that's what it is What if I could say now

What if I could say

Everything I meant now

EverythingIt's only hours, only days

Sat in Libra's bowl

Where it's all, it's all, it's all

It's all balancing
