Blue Water

Black on Black

When I was walking by the blue, blue water
I was thinking about you
By the water you can think forever
By the water so deep and blueBy the blue, by the blue waterWhen I was dreaming by the blue, blue water
I was dreaming about you
[Incomprehensible] I dreamed we would love forever
By the water so deep and blueBy the blue, by the blue waterWe gonna run, we gonna run away
She's been lookin' at me
She's been thinkin' 'bout nobody but meShe gonna run, she gonna run away
She's been lookin' at me
She's been thinkin' 'bout nobody but meWhen I was swimmin' in the blue, blue water
I remembered the truth
You didn't want me to be your lover
That's why the water is so deep and blueBy the blue, by the blue water
By the blue, by the blue water
