Let Me In Your World

The O'Jays

I don't like it on the outside
Got to get on the inside
Won't you let me into your worldYou walk around
With your head up high
On the street I stop
But you walk on byOh, sophisticated lady
You know I love you
So why do you put me through
The changes that you do?Won't you let me into your world, lady
Please let me into your world, ladyThe experts say, on the milky way
There's a pot of gold there, everyday
But in my world that pot of gold is in your eye
And in your arms my happiness liesWon't you let me into your world, lady
Please let me into your world, sweet ladyLife is too short to live it alone
So let me into your world
Let me feel the happy homeWon't you let me into your world, lady
Please let me into your world, ladyNo, noI don't like it on the outside
Got to get on the inside
I don't like it on the outside
Got to get on the insideI don't like it on the outside
Got to get on the inside
I don't like it on the outside
