Didgits

MU330

Toenails stuck between my teeth I really wish you'd wash your feet. So those blisters they wont keep me away for long. 'cause I could suck the scalp and let them (...?). The doctor said your feeling will return shortly. Your toes will feel much better than. Didgits all the time, your didgits on my mind. Didgits in my dreams at night, oh what I wouldn't give for just one bite of... your didgits all the time your didgits on my mind. Didgits in my dreams at night. Dirty feet they really turn me on, ooh la la, just one suck and then I'm gone. I wanna suck your toenails until they bleed, society cannot tell me what I should not eat. The doctor said your feeling will return shortly. Your toes will feel much better than. Didgits all the time, your didgits on my mind. Didgits in my dreams at night, oh what I wouldn't give for just one bite of... your didgits all the time your didgits on my mind. Didgits in my dreams at night.
