## **Breakout**

## **Cash Cash**

Let's go, follow me outside And I know it won't be long till, I'm holding your hands tight I know you want to leave 'em all behindSo let's catch a cab downtown now And let the fire up and make it right 'Cause there's nobody home tonightBreakout and take it to the floor So I can take you home and give you all the things All the things we're not supposed to doBreakout and take it to the floor We'll finally be alone, just take me home with you tonight Just you and I, and sing oh, oh, and sing oh, oh, all nightLet's go 'cause I'm feeling wild And I know it won't be long till, I'm touching your skin soft I know you want to, give you up tonight, oh, noI will never break your heart, girl Just give me one more chance to make it right 'Cause there's nobody home tonightBreakout and take it to the floor So I can take you home and give you all the things All the things we're not supposed to doBreakout and take it to the floor We'll finally be alone, just take me home with you tonight Just you and I, and sing oh, oh, and sing oh, oh, all nightOh, oh, oh, oh, oh, oh, oh Oh, oh, oh, oh, oh, oh, oh Oh, oh, oh, oh, oh, oh, oh There's no one home, hit the lightsBreakout and take it to the floor

There's no one home, hit the lightsBreakout and take it to the floor
So I can take you home and give you all the things
All the things we're not supposed to doBreakout and take it to the floor
We'll finally be alone, just take me home with you tonight
Just you and I, we'll finally be alone, just take me home with you tonight
Just you and I, and sing oh, oh, and sing oh, oh, all night
