

We Can Never Break Up

Alkaline Trio

We can never break up
We can never not show
We can never go home
No, we can never elopeWe've only got one choice
So let's keep making it
And making it, making it
And making itA lot of things can change
A lot of tears will dry
There's no way out of your head
I can't still drink like I'm tryingI never had to work too hard
Let's keep working it
And working it, working it
And working itYou're like a test, I can't fuck up
You're like a song in my head, like a la la la la la, like a dream
Don't wake me up and if I never see the light again
Well, I guess they put me in the ground with this smile on my head
My love, my loveWe can never break up
We can never not show
We can never go home
And we can never elopeWe've only got one choice
So let's keep making it
And making it, making it
And making itYou're like a test, I can't fuck up
You're like a song in my head, like a la la la la la, like a dream
Don't wake me up and if I never see the light again
Well, I guess they put me underground with this smile on my head
My love, my loveMy love, my love
My love, my love
My love, my love
My love, my love
