Over It

[Palm Trees & Power Lines](#)

I can't figure out what to do
I can't believe I never knew
That you were bringing me down
When I thought your affection was the only direction
That I could turn to, but who said that I need youWe weren't meant to be
It's obvious, why can't you see
We aren't working out
And I can't solve all our problems
Your heart is just a trick
Your love is all amiss
And it's a little hard to say
But I am over thisYou had to go and change your mind
But really I don't have the time for this I'm just so sick
And there is nothing you can do to fix this
And at this point you are not worth it
Just get out of my head (quit tearing me down)We weren't meant to be
It's obvious, why can't you see
We aren't working out
And I can't solve all our problems
Your heart is just a trick
Your love is all amiss
And it's a little hard to say
But I am over thisYou were bringing me down
I don't want you to think you can turn this back around
And I just know you won't get over itWe weren't meant to be
It's obvious, why can't you see
We aren't working out
And I can't solve all our problems
Your heart is just a trick
Your love is all amiss
And it's a little hard to say
But I am over this
