

This Town

Bryan White

This town doesn't understand
Two people makin' dreams and plans
They say were much too young
In this town This towns full of narrow minds
Cant see beyond the city limit signs
They close the bedroom blinds
In this town I've done some thinkin' and I realize
Theres more than dairy queens and Friday nights
While were still young, we've gotta get away
Together we can make our break From this town wordll get around
Two renegades escaped
No, they couldn't keep us down
And this town will be a dime store memory
Baby, I just know it
Theres a better place to be than this town
Oh, this town Now this towns got a factory
Not much future here for you and me
Its as far as they can see
In this town I've heard the wind blowin' at my door
Voices tellin' me theres so much more
Its easy to get bored
In this town I've just got to see those those city lights
Its time we spread our wings and learn to fly
Theyll never catch us if we disappear
Oh the interstate is much to near To this town wordll get around
Two renegades escaped
No, they couldn't keep us down
And this town will be a dime store memory
Baby, I just know it
Theres a better place to be than this town
Oh, this town Cant you just hear them talkin' their righteous words
Burnin' down the wire
What do we care what they think now
Thinkin's not allowed in this town This town wordll get around
Two renegades escaped
No, they couldn't keep us down
And this town will be a dime store memory
Baby, I just know it
Theres a better place to be than this town

Oh, this townThis town

This town

This town
