Now & Forever

Marybell Love

I will always love you
Now and forever
I will always love you
Two words collide
Before we knew what was happening
Love crashed into our lives
So helplessly we fell so hard
Guess something had to break
We made our first mistake
We thought we'd found the answer over night
To all the problems that were in our lives
And now I feel the tears, not a minute passes by
When I don't wish that you were near
Time will never mend
(Oh no)
This broken heart
Now and forever
I will always love you
Pain that never ends
You can be sure
Now and forever
I will always love you
When you hear my name
Tell me how do you feel?
Is it just like me?
My heart fills up with pain
Just the mention of you makes me fall apart
But where is there to start
You said we missed our chance and it's too late
But I believe there's one more chance to take
I know we said goodbye, but I still can't let go
Please give us one more try
Time will never mend
(Oh no)
This broken heart
Now and forever
I will always love you
Pain that never ends
You can be sure

Now and forever

I will always love you
Think again before you walk away
There's so many reasons you should stay
It's our destiny, it's how it's got to be
Just you and me
No matter where you go
No matter what you do
You know I'm gonna be right here for you
I will always love you
Giving you my heart
Giving you my soul
Never ever gonna let you go
I will always love you
Time will never mend
(Oh no)
This broken heart
Now and forever
I will always love you
Pain that never ends
You can be sure
Now and forever
I will always love you
Time will never mend
(Oh no)
This broken heart
Now and forever
I will always love you
Pain that never ends
You can be sure
Now and forever
I will always love you
Time will never mend
(Oh no)
This broken heart
Now and forever
I will always love you
Pain that never ends
You can be sure
Now and forever
I will always love you
