

Kaif

Ministry

I love the silence I'm in
I think I dreamed this before
Some lives seem so incomplete
Some just keep coming back for more Where did the time go?
I can't remember how it end
Don't even know who I am
A fading memory
A fading image redrawn
Can't wait for ever more Where did the time go?
Remember things I never said
I've seen the faces before
I hope the future is dead
The dead keep asking for more Where did the time go?
