Cloud Nothings

We started a war,
Attack on memory
No easy way out
Forget everything.
No nostalgia,
No sentiment.
We're over it now
We're over it then
{ We forget what you do
We don't care what we lose }
{ We forget what you do
We don't care what we lose } We started a war
Attack on memory
No easy way out
Forget everything
No nostalgia
No sentiment
We're over it now
We were over it then { We forget what you do
We don't care what we lose }
{ We forget what you do
We don't care what we lose }
