

# Wasted Hours (A Life That We Can Live)

## Arcade Fire

All those wasted hours we used to know  
Spent the summers staring out the window  
The wind it takes you where it wants to go At first they built the road then they built the town  
That's why we're still driving around and around  
And all we see are kids in the buses longing to be free Wasted hours before we knew  
Where to go and what to do  
Wasted hours that you make new  
And turn into a life that we could live Some cities make you lose your head  
In this suburb stretched out thin and dead  
What was that line you said?  
Wishing you were anywhere but here  
You watched the life you're living disappear  
and now I see, we're still kids in the buses longing to be free
