Into The Sea

Sivert HÃ¸yem

When I was on the ground
and you looked upside down
the noise was all around
just like the rain falls down
falls down on me
falls down on me
into the sea
into the sea
I wonder, if you...
We didn't make a sound
No one could show me how
We didn't make a sound
I still can't figure out
What I have found
What I have found
When you're around
When you're around
I wonder, if you...
I hope, I hope we never
Feel so, alone together
There are still some things
some things that I can't see
When we walk down the street
there is a part of me
where there's no light
where there's no light
Where it is night
Where it is night
I wonder, if you...
