

Into The Sea

Sivert HÅyem

When I was on the ground
and you looked upside down
 the noise was all around
just like the rain falls down
 falls down on me
 falls down on me
 into the sea
 into the sea
 I wonder, if you...
 We didn't make a sound
 No one could show me how
 We didn't make a sound
 I still can't figure out
 What I have found
 What I have found
 When you're around
 When you're around
 I wonder, if you...
 I hope, I hope we never
 Feel so, alone together
 There are still some things
 some things that I can't see
 When we walk down the street
 there is a part of me
 where there's no light
 where there's no light
 Where it is night
 Where it is night
 I wonder, if you...
