

Domestic, Light And Cold

[Dierks Bentley](#)

Hey bartender, can I make one special request?

My woman left me so tonight I'll be drinkin' your best I'm not talkin' about Single Malt, Scotch, Jagermeister or
Cuervo Gold

I'll take anything domestic, light and cold Domestic, light and cold, that's what I'm havin'

Serve me up any old iced down American classic Pop a top, crack a can, just don't make me wait too long

I'll take anything domestic, light and cold No, I wasn't cheatin', she just said that I was hard to please
And I'll admit it, that I can be set in my country ways So go ahead and break out the good stuff, if I can be so
bold

I'll take anything domestic, light and cold Domestic, light and cold, that's what I'm havin'

Serve me up any old iced down American classic Pop a top, crack a can, just don't make me wait too long

I'll take anything domestic, light and cold You've got beer from all over the world on the wall

I can even get a free T-shirt if I try them all

But tonight I'm in the mood for some of that home grown booze Yeah, pop a top, crack a can, just don't make
me wait too long

I'll take anything domestic, hey I know what the best is

Anything domestic, light and cold Bartender, I'll take anything domestic, light and cold, over here

Well, hello over there, that's something domestic, light and hot

Daddy likey, hi there, you, you like country music?

Oh, yeah, dude, we can't say daddy likey, can we?
