

# I'll Never Get Enough of You

## Air Supply

All last night we lay in bed making love  
I never felt so much before with anyone  
I never had to say a word, it was all right there  
The warmth inside us flamed and circled everywhere And if I never have another love  
Well at least I had last night  
Now I know, how the feeling grows  
'Cause you made me come alive I'll never get enough, never get enough  
Never get enough of you  
Never get enough, never get enough  
Never get enough of you  
I only wanna give you more Now you're gone, I'm all alone just lying here  
Waiting for the moment when I'll feel you near  
I never asked if you'd come back, I was too damn proud  
I just smiled and touched your hair as you walked out And if I never have another love  
Well at least I had last night  
Now I know, how the feeling grows  
'Cause you made me come alive I'll never get enough, never get enough  
Never get enough of you  
Never get enough, never get enough  
Never get enough of you  
I only wanna give you more And if I never have another love  
Well at least I had last night  
Now I know, how the feeling grows  
'Cause you made me come made me come alive I'll never get enough, never get enough  
Never get enough of you  
Never get enough, never get enough  
Never get enough of you Never get enough, never get enough  
Never get enough of you  
Never get enough, never get enough  
Never get enough of you Never get enough, never get enough  
Never get enough of you  
Never get enough, never get enough  
Never get enough of you
