We Believe

David Cook

(Verse 1)
In the night
We're all looking for a guiding light
We're all seeking something more than right
It must be there
Everyday
We're all trying to find a better way
Were all hoping for someone to say
We're almost there
(Chorus)
We believe
There's a reason that we're all here
That every doubt will disappear, we believe
We believe
That tomorrow carries something new
And after everything that we've been through
We believe
(Verse 2)
In our time
If we hit a wall that we can't climb
And if we stumble at the finish line
We'll start again
Everyone
Every single person under the sun
Has a moment where they know they've won
But until then
(Chorus)
We believe

There's a reason that we're all here
That every doubt will disappear, we believe
We believe
That tomorrow carries something new
And after everything that we've been through
We believe
(Bridge)
In the power of hope
In the strength of peace
There's a way back home

Where the battles cease
A new world will grow
If we just believe
This is what we know
This is what we need
We believe
That tomorrow carries something new
And after everything that we've been through
(Chorus)
We believe
There's a reason that we're all here
That every doubt will disappear, we believe
We believe
That tomorrow carries something new
And after everything that we've been through
We believe
We believe
We believe
We believe
