More Than You Deserve

Meat Loaf

From the very first moment I saw you

I knew our love would be so strong

And the very first moment I kissed you

I knew our joy would last so longThen I saw you making love to my best friend

I didn't know whatever to say

I saw you making love to my best friend

So I looked him right in his eyes and I said"Listen boy, won't you take some more it's what you came for

And don't mind me I won't throw you no curse

Have yourself a ball with my good women

Won't you take some more boy, it's more than you deserve

Won't you take some more boy, it's more than you deserve"Oh, wen I saw you hanging round the truck stop

Shining like an angel in the night

And when I saw you crying like a baby

I knew you'd have to be my wifeThen I saw you making love to my best friend

I didn't know whatever to say

I saw you making love to my best friend

So I looked him right in his eyes and I said"Listen boy, won't you take some more it's what you came for

And don't mind me I won't throw you no curse

Go on and have yourself a ball with my good women

Won't you take some more boy it's more than you deserve

Won't you take some more boy it's more than you deserve"Now I think I'm going to have to leave you

Because I'm feeling much too weak to share

And the pie, it's cut in too many pieces

The flavor that I crave is no longer thereThen I saw you making love to two of my best friends

I didn't know whatever to say

I saw you making love to a group of my best friends

So I looked them right in their eyes and I said"Listen here, group, won't you take some more it's what you came

for

And don't mind me I won't throw you no curse

Go on and have yourself a ball with my good women

Won't you take some more boys it's more than you deserve

Won't you take some more boys it's more than you deserve

Won't you take some more boys it's more than you deserve"
