

Better Days (iTunes Originals Version)

[Anthony Hamilton](#)

There was times I didn't want to bother you
You were at work all night, I didn't want to complain
And I realize the compromise that love ones make
I'm holding on for the future, some more better days
With you Be without you
Oh wouldn't be with out you
Oh I live for your love
For you Say word I'm there when you need me
My job is to protect you, although I know
That women get emotional , in need of love
So I tried to learn your species, and one day we'll grow
Grow Be without you
Oh wouldn't be with out you
Oh I live for your love
For you I live for ya, live ya
I live for ya lovin' baby
Without you, without your love Be without you
Oh wouldn't be with out you
Oh I live for your love
For you I wouldn't be without you
I couldn't live without you
Never gonna smile without you
Won' be without you
