Legion of Doom

Carnivore

Advisory - the following lyrics contain explicit language:

We rule the streets after dark fast and silent like a shark
the 1200 I got between my knees my hog helps me to spread the disease
people don't understand hair, and leather but I'm telling you I couldn't be living better
I don't fear nothin' with my brothers on my side fuck with us and it's suicide
Live your life by your will learn to be an animal
by the light of the moon beware the legion of doom
We only ask to be left alone having good times getting stoned
pulling some broad and guzzlin' buds riding high into the sun
to serve in heaven might suit some wall me and the boys would rather rule in hell
looking for trouble I'm warning you you'll be dealing with the casket crew
Chorus
