

# Shine

## Randy Houser

Behind the tar paper shack back in the holler,  
Old man shuckin' corn and coilin' copper,  
He's about the only business in town,  
That ain't been boarded up 'fore the banks shut down.  
At first glance, you might think times were hard

There ain't no coal comin' out of that shaft  
There's rust all over the railroad tracks  
You can't see nothing but a big old black  
Cloud up in the sky  
And if the good Lord don't see fit  
To send a little sun down on these pines, that's fine  
Old Leonard gonna make us shine

Way back before these mines were tapped  
He had a bigger dot there on the map  
Who knows, we might get there again  
And who cares that train ain't rollin' in  
Look beyond, they're comin' 'round the mountain

There ain't no coal comin' out of that shaft  
There's rust all over the railroad tracks  
You can't see nothing but a big old black  
Cloud up in the sky  
And if the good Lord don't see fit  
To send a little sun down on these pines, that's fine  
Old Leonard gonna make us shine  
He's gonna make us shine

There ain't no coal comin' out of that shaft  
There's rust all over the railroad tracks  
You can't see nothing but a big old black  
Cloud up in the sky  
And if the good Lord don't see fit  
To send a little sun down on these pines, that's fine  
That'll be just fine  
Old Leonard gonna make us shine

Old Leonard gonna make us shine  
Old Leonard's gonna make us shine

Gonna make us shine

Make us shine Leonard
