

Least That I Can Do

Carrie Hassler & Hard Rain

The Least That I can Do

What wondrous thing is this
That a virgin shall conceive
As the angels spoke these words
Must have been hard to believe
But she humbled to the task
Though the whispers must have stung
She counted it a privilege
And through Mary it's begun

Chorus

It's the least that I can do
For the most that you have done
And in your time of need
How could I turn and run
For all you've given us
From the manger to the tomb
It's the least that I can do
For all that you have done

Standing 'neath the cross
She fixed her eyes on him
A multitude of memories
Surely made again
Did she think of manger scenes
Or angel lullabies
And from the cross He mentioned her
She'll stay with Him as He dies

Chorus

It's the least that I can do
For the most that you have done
And in your time of need
How could I turn and run
For all you've given us

From the manger to the tomb
It's the least that I can do
For all that you have done

Repeat Chorus

tag: It's the least that I can do
For all that you have done
