

# Weight of the World

## Misery Signals

Once again I end up biting the bullet  
Don't act surprised, by now it's second nature  
It happens over and over again  
I only bend so far before I break  
And in return, nothing leaves me satisfied  
But it's only a matter of time

Won't be long, I smell the fuse burn shorter  
And I'm not about to snuff it out  
I'll take this head on till the end  
Hear my voice, no cries for deliverance  
I've become the victim of my own defense  
And there's no one to blame but myself

As the structure fails  
I'll pray for the fall out  
For I am what I create  
As the embers rise  
I'll be at the bottom  
When it all comes down  
I'll carry the weight of the world

Strapped to my back  
I'll carry the weight of the world  
Chained to my neck  
I'll carry the weight of the world

---
