

Colors Die Out

House of Heroes

Put me in a cage
But cages never made a killer tame
Or changed his name
I don't know a better way
But I know I can't go back the way I came
And I'll never be the same I wouldn't go as far as to call me changed
I just never got nowhere running away I had to find out
There's no fight to fight now
That I'll make it right now
Till the colors die out
Forgive a monster's force
But forgiveness can't make him feel remorse
But I hope it's real
You say God loves me still
But love is like a story that you tell
In a language I can't hear Sometimes I dream about the stars
And I think it's really not so dark I had to find out
There's no fight to fight now
That I'll make it right now
Till the colors die out Sometimes I dream about the stars
And I think it's really not so dark
I had to find out
There's no fight to fight now
That I'll make it right now
Till the colors die out
