You Were There

Regine Velasquez

I guess you've heard
I guess you know
And I might have had told you but I guess i'm too slow
Thats only romantic
But I know that its real
I hope you dont mind if i say what i feel
Its like im in somebody elses dream
This could not be happening to me[chorus]
But you were there
You were everything ive never seen
You woke me up from this long and endless sleep
I was alone, I opened my eyes
And you were thereDont be alarmed
No dont become shunned
I dont wanna change things
Leave them just as they were
I mean nothings really different
It me who feel strange
Im always lost for words when someone mentions your name
I know that ill get over this,for sure
Im not the type who dream that could be more[Chorus]Now take your smile home with me
All the magic in your hands
The rain has stopped
The storm has past
Look at all the colors
Now the sun is here at last
I suppose that youd be leaving
But I want you to know
Part of you stays with me even after your gone
I dont have to play in someone elses sea
This could not be happening to me[chorus]you were there
