

In Time

Beverley Knight

Making decisions over what I should do
I see no other way for me to go through
Things seem to crowd me when I need space to breathe
And all I can do is fantasized over how it should be
Thinking it over just makes me see
That for once in my lifetime I'll do right by me
Break inhibitions, lose all my fears
And wipe away my misty eyes so my vision is clear
Don't you know I'm a mover?
(Don't you know I am?)
Don't you know time's a healer?
(Don't you know that, ooh?)
Everything has a place in life
And I'm gonna find my own way there
I'll start as I mean to go on
I'll hold to my faith and be strong
I wanna try, I'm gonna get by
In time
Facing the future with a positive eye
Problems from yesterday I'll leave them behind
If love should come my way, I'll be stronger this time
'Cause no one with an attitude's gonna play with my mind
Don't you know I'm a mover?
(Don't you know I am?)
Don't you know time's a healer?
(Don't you know that, ooh?)
Everything has a place in life
And I'm gonna find my own way there
I'll start as I mean to go on
I'll hold to my faith and be strong
I wanna try, I'm gonna get by
In time
Turning a page in my life
Closing the door to strife
I wanna try, try to get by
In time, time
Facing the future
So positive, yeah, yeah
Oh, making decisions for me
Love should come my way
I'll be stronger
