

The Thin Red Line

A Change of Pace

Let go I don't know
I don't know
How to save you
Breathe into your lungs
It's almost over now Let go Hold on tight
Don't let go
I could save you
I could save you
I can't save you anymore I'll take it back and hold my breath
(Hold my breath)
I'm breaking my fist on the wall next to your door
On bended knee I'll pray for you
(Pray for you)
On angels wings we'll find what we've been looking for Let go Moving fast
Moving slow
My head's spinning
In slow motion
Over desperate breaths of air Hold on tight
Don't let go
I could save you
I could save you
I can't save you anymore I'll take it back and hold my breath
(Hold my breath)
I'm breaking my fist on the wall next to your door
On bended knee I'll pray for you
(Pray for you)
On angels wings we'll find what we've been looking for On angels wings I'll take it back and hold my breath
(Hold my breath)
I'm breaking my fist on the wall next to your door
On bended knee I'll pray for you
(Pray for you)
On angels wings we'll find what we've been looking for
