

# Black Pearl

## Kandystand

Mother come pick me up  
I feel I've lost all that I knew  
    In this forest full of lies  
You're all that's ringing true  
    Oh, by my world  
        Black Pearl  
    Forever my world  
        Black Pearl  
    Gather all that's left  
Place my fears up on this shelf  
    Now I feel alive  
As I'm no longer by myself  
    Oh, by my world  
        Black Pearl  
    Forever my world  
        Black Pearl  
    Oh, by my world  
        Black Pearl  
    Forever my world  
        Black Pearl
