

# Slow Motion

## Mest

It's slow motion, ya got me trapped inside this world  
It's slow motion, will somebody please press play?  
It's slow motion  
It's slow motion  
I'm so bored with life  
Is it because I wanted you to be my wife?  
And now she's gone again  
And I wonder if she'll ever be my girlfriend again  
I think what can I do now  
Sittin' by my kitchen table wondering how  
One second, life can be filled with so much emotion  
Ya got me trapped inside this world  
It's slow motion, will somebody please press play?  
It's slow motion, ya got me trapped inside this world  
It's slow motion, will somebody please press play?  
I wake up, get out of bed, I feel like the walking dead  
I take off my pants and wash my face  
I'm safe again in the place I love to be  
The unconscious world is the best world of all  
With no real worry or fears at all  
So once again, something hits me in the eye  
It's the morning sun  
And it's bringing me back to the place I don't want to be  
I don't wanna be  
It's slow motion, ya got me trapped inside this world  
It's slow motion, will somebody please press play?  
It's slow motion, ya got me trapped inside this world  
It's slow motion, will somebody press play?  
Slow motion  
Slow motion  
Slow motion  
Slow motion  
It's slow motion, ya got me trapped inside this world  
It's slow motion, will somebody please press play?  
It's slow motion, ya got me trapped inside this world  
It's slow motion, will somebody please press play?
