# Place Position

## Fugazi

All origins are accidental
You've got no papers and no roads lead home
Anymore
Chance is the root of all place position
All maps are random all scales are wrong
Legal illegal no passion for the difference
Legal illegal false premise forge the nation
May all your borders be porous
Free transmission smear genetics
C'est la vie yawn yawn yawn
I can't stifle my boredom
So why not act your age
Fear of contagion the violence of a fence builder's dream
That masks the phrasing of "all the pleasures of home"
Legal illegal
I want to go home
