

# Missing Me

## The Viper Creek Band

### MISSING ME

It ain't easy, To hear the word goodbye  
And it's harder without a reason why  
I ain't gonna fight you this time around  
I can see, You're long gone anyhowCHORUS  
When the lights come on  
And the last song ends  
And you're kissing someone you know you'll never see again  
Baby that's when. You'll be missing me, missing me  
When the sun comes up and you're all alone  
Lying there wishing you had someone to hold  
Baby I know, You'll be missing me, Missing me ,Missing me  
You can tell the story any way you like  
You can blame it on me, and tell yourself you're right  
By the time you realize what we had  
You'll be way too late ,I'll be too far gone, I ain't ever coming backCHORUS

### SOLO

When you pass that tree where our names are carved  
Hear the strumming of an old guitar  
When you need an easy conversation  
You hear our song on every station  
When you pass our favourite restaurant  
If what's out there ain't what you want  
When you've done runnin' round and you've had enough  
And you wanna be loved like you've never been loved  
You'll be missing me yeahCHORUS
