

# Just A State Of Mind

Graham Coxon

Emptiness I've found you  
How bleak you are  
Moving in the shadows  
You're here and it's clear that it's  
Just a state of mind, running through the times  
Keeping us alive

First time that I saw you  
Teeth squeezed by lips  
And I thought I'd die without you  
But you're here and it's clear that it's  
Just a state of mind, running through the times  
Keeping us alive  
Just a state of mind, keeping us in line  
Before we take a dive

Just be happy you are strong now, it's so lonely to love someone

Happiness I've found you  
How sweet you are  
Smiling in the shadows  
You're here and it's clear  
That it's just a state of mind, running through the times  
Keeping us alive  
Just a state of mind, keeping us in line  
Before we take a dive
