

# I've Seen Footage

## Death Grips

Whats that  
cant tell  
hand held dream  
shot in hell  
deep space ghetto (streets)  
show me somethin  
i aint seen before  
mystery hind that  
death door  
juke step electrocute the floor  
whats the science on  
flyin that high  
got a no-no goin, one time  
Creeps up behind me  
over my shoulder  
turn around try to see  
but its nowhere  
noided, noided  
static on my blindside  
I seen footage, i stay noided... i seen  
Everybody's knowin  
where ya think you're goin ain't goin nowhere  
satelite, handle that  
wit a lead pipe  
Who captures life  
who takes whats left who stay  
on that next, already know my gillicutti, like i told you...

dont touch me  
whats up wit it  
i stay noided, stimulation overload account for it  
desensitized by the mass amounts of shit  
I've seen it, ive been it  
cant delete it feels like jail (noided) full moon in da klink shinin dont sleep  
surveillance post my bail  
I seen footage, i stay noided... i seen  
Armored cop open fire glock  
on some kid who stepped so  
fast was hard ta grasp

what even happened til you seen dat head blow  
off his shoulders in slow mo  
rewind that, is so cold  
rewind that, is so cold  
i seen footage.. i stay noided  
Juke step wit so much boy rude looseness seem like  
no bones in him skin  
(noided) my jaw hit da floor like this real for i gotta see that one mo gin  
ambulance hit and run over pedestrian in brazil  
little tiger, boy soldier  
twist a cap back and kills (noided)  
seen crazy shit man crazy shit  
I seen footage, i stay noided... i seen
