Cul De Sac

Tomahawk

Advisory - the following lyrics contain explicit language:

The world is growin' old and preparin' for sleep
But you and me are just not gettin' outta bed, wakin' up
Sunbathing on the shores of a nightmareI wish you were here 'cause they say, we say and we say
Eternity is all used up and our hell has frozen over
But it ain't that cold it's warm enough
Sunbathing on the shores of a nightmareI wish you were here 'cause they say
We say and we say
That we're saved
We're saved, that we're saved
