

Don't Forget

Big Deal

Only my eyes see
You're the only one I want
And need you next to me
You're the only one I want to see Don't forget we had fun
When you feel like you're done
You've forgotten we had fun
You're the only one
You're the only one
I thought I told you
This is world is for you
Don't you know the only
Time I'm free is when
I hear you sing along with me
Don't forget we had fun
When you feel like you're done
You've forgotten we had fun
You're the only one
You're the only one Only my eyes see
You're the only one I want
And need
