Lucky

Bernie Paul

Maybe I'm a fool
one day we'll know
Maybe I'm a fool
only time can showBut now these lonely nights are killing me
I'm so far away from reality
The pain grows stronger
I can't hold on much longer
I can still remember
that day in September
The words that set you free.Lucky! Be a man and try and understand
Lucky! Be a man if you can
Lucky! You know I relly
really love you so
But Lucky - I still have to go.Baby can't you see
that tears on my face
Painful memories of a love I can't replaceI'm sailing in the past and I'm sinking fast
You can hear my S.O.S. crying out for tenderness
Though yesterday's dead and gone
Your magic still lingers on
I can still remember that day in September
The words that set you freeLucky! Be a man and try and understand
...
