

Tiffany Lou

[Daughn Gibson](#)

Her Father was on another episode
Three years apart,
He got in the same police car
It tears her apart, just to watch him go
While inner circle made the groave
She left the room
Tiffany Lou I can't help wishing
She'd make the call
To the network, and tell'em that he's gone
He died with his mind in fire
And his jeans half on
Like the days after school
Yellin' up to her room
Tiffany Lou
