Pusher

Nickelback

And some say, why you follow
Somethings so long, so I asked him
And he convinced me before long
Now it's over, and I've seen him
Don't come back anymore
And he said, yeah!
I need, I don't ask much anymore, and
I found out something, yeah
Throw a stone into the water
The ripple is broke, burn the baby
Just for holding the cradle too close
Take it all back, search for justice
Don't live there anymore
And he said, yeah!
I need, I don't ask much anymore, and
I found out something, yeah
And why do you see me in this way? The way that I did
I gave him the means to the ends, yes I, I did
I bothered not to believe in this way, way that I did
I made him just to see in this way, way that I did
Yeah, yeah, yeah yeah
Yeah! I need, I don't ask much anymore, and
I found out something, yes I did, yes I did
I need I don't ask much anymore, and
I found out something, yeah! Found
