

# Here to Stay

## New Order

Who is this man that follows me?  
This blue eyed boy who wants to be  
This worthy cause of human kind  
This pawn set up by time Like a bright light on the horizon  
Shining so bright, he'll get you flying  
He'll drive you away, he'll drive you insane  
But then he'll remove all of your pain Like a bright light on the horizon  
Shining so bright, he'll get you flying  
He'll get you flying, he'll get you flying  
He'll get you flying, flying, flying This open book yet to be read  
This second look, this leap ahead  
The hope I held inside  
With you, was kept alive Like a bright light on the horizon  
Shining so bright, he'll get you flying  
He'll drive you away, he'll drive you insane  
But then he'll remove all of your pain Like a bright light on the horizon  
Shining so bright, he'll get you flying  
He'll get you flying, he'll get you flying  
He'll get you flying, flying, flying We're here to stay  
We're here to stay  
We're here to stay  
We're here to stay We're here to stay  
We're here to stay  
We're here to stay  
We're here to stay Like a bright light on the horizon  
Shining so bright, he'll get you flying  
He'll get you flying, he'll get you flying  
He'll get you flying, flying, flying
