

# I'll Just Take It Out In Love

[George Jones](#)

I gave you love when you were lonely  
And I gave you strength when times were bad  
I've been a daddy to your children  
And I've dried your tears when you were sad But darling you don't need to thank me  
Having you is thanks enough  
And if there's anything you owe me  
Darling I'll just take it out in love I've been your friend when you were troubled  
And I've stood by you when things went wrong  
I've picked you up each time you stumbled  
When you were weak then I was strong But darling you don't need to thank me  
Having you is thanks enough  
And if there's anything you owe me  
I'll just take it out in love  
Darling I'll just take it out in love
