Bisbee Blue

Calexico

When you can't find the hours
Days keep on slippin' through
Avenues under construction
Blockin' out your sky bluesBuried beneath the letters
Bills and the junk in the mail
Finding the strain to your heart
From the troubles down the trailNo sign of your old haunts here
Gone with the copper crews
Veins mined in vein remind you
Choices we choose to loseNew cities keep on sprawling
Old towns falling too
Rainin' a river of color
And it's flowin' bisbee blue
Straight to you bisbee blueSome say, well, this way's
The only one that's trueBring me back bisbee blue
Bring me backOh, these days, seem dark
Darkest I've seen
Darlin', you send me
Through the hoursDays keep on siftin' through
Chippin' away to remember
Days with you bisbee blue
Shinin' like bisbee blue
Bring me back bisbee blue
