My Baby Don't Rock Like That

Jon Secada

My baby don't swing that way
Only want our privacy
My baby's ready willing all the time
She captivates my heart
And she blows my mind
She's a little kinky girl
Love her if you dare
When it comes to gettin' down
My baby and I don't share
One on one, we share the ride we both provide
All night long, we take our time we do it right
We don't need nobody else besides ourselves
All we need is our favorite fantasy
My baby don't rock like that
We don't want nobody else sharin' our sack
My baby don't rock like that
We don't want nobody else sharing our secrets
My baby don't rock like that
She don't want nobody else seein' her that
My baby don't rock like that

No, no, no
My girl's a naughty girl but she ain't cheap
And we both get nervous around each others heat
We like gettin' our party started
We like tryin' new things
But when it comes to making love
My girl and I don't swing, no, no
One on one, we share the ride we both provide
All night long, we take our time we do it right
We don't need nobody else besides ourselves
All we need is our favorite privacy
My baby don't rock like that
We don't want nobody else sharin' our sack
My baby don't rock like that
We don't want nobody else sharing our secrets
My baby don't rock like that
She don't want nobody else seein' her tat
My baby don't rock like that

No, no, no
