

# King Of No One

## The Most Serene Republic

Crowds of people are invading my mind  
Even in my sleep  
Why don't they go away? My reign ended a while back, a while back  
Oh, my reign ended a while back, a while back  
Oh, my reign ended I get up like it always does then I take it off  
Running down the street  
Before the front door takes a beat  
Yelling, ?I am the king of no one?
