

Can We Make It Work

The Mountains

Can We Make It Work?
Can we make it work?
Can we leave our years apart?
Can we make it work?
Can we settle in the dark? Is it getting better?
Isn't it just random rules that leave their trails forever?
Without you
And it's time we synchronize our dreams again
But can we make it work When the journey always ends
Somewhere even worse
Where it all begins again
And I guess the further I slowly move away from you
The less I even care
These questions in a world of blue
And it's time we laugh and dance and sing again
