

# Woman Tonight

## America

Oh, hold me tight, wont you be my woman tonight?  
Oh, hold me tight, wont you be my woman tonight? I get the shivers up and down my spine  
The only time Im happys when I know shes mine  
So hold me, hold me tight Treat me right, wont you be my woman tonight?  
So treat me right, wont you be my woman tonight? First I see you and then you let me go  
The only time I touch yous when you dont wanna know  
So hold me, hold me tight, all right Hold me tight  
Hold me tight, wont you be my woman tonight?  
Hold me tight, wont you be my woman tonight? I get the shivers up and down my spine  
The only time Im happys when I know shes mine  
So, hold me, hold me tight, hold me tight, woman tonight
