Veronica

The Huntingtons

woh-oh veronica, i think i love you
i never wanna put anybody above you, no
'cause you're the only one for meveronica i wanna kiss you
don't wanna give myself a chance to miss you, no
'cause you're the coolest girl for medo you remember the night at the dance
when i walked up to you and i took your hand
and we danced all night and i held you so tightdo you remember the night when i walked you home
and all the times we talked on the telephone
and all the silly things you said to me
